The table shows the award numbers and awarded dollars rolled up by owning school (see below for school groupings), or owning org. The corresponding total of awarded dollars for each school/org is a link that will open a new tab to show the detailed list of individual awards comprising the total. If the school, sponsor, or org prompts are used, the table will update accordingly.

**Please note** that if an org did not have awards for the time period selected, or that same period a year ago, it will not show in the list of orgs.

All links from the summary page open the detail view, showing each individual award that adds up to the total clicked on the summary page. Additional prompts across the top of the page allow continued filtering of the details presented in this view. Provided that you have access to the segment in GMAS, the project number is a direct link to the segment home page in GMAS.

### Security

All Grants Management users have access to this dashboard and will see the same data on the summary page. All Grants Management users will also be able to access the detail view, however, the "Project" column will only contain a link if the logged in user has access to the corresponding segment in GMAS.

### Data definitions

Billing agreements in GMAS are excluded from this dashboard (any projects in GMAS that have either the **research type** or **funding instrument** set to "Billing agreement")

#### Award

This is the original award received from the sponsor. In GMAS, every segment has only one Initial Award, which is used on this dashboard for the date submitted and awarded amount.

#### Sponsor

On the summary dashboard page, the sponsor always refers to the **ultimate** sponsor – which is the prime sponsor if it exists, otherwise the direct sponsor. On the detail page, both direct and prime sponsor are shown.
